

# OUR RESOURCES CREDENTIALS

Capital has advised resources clients in every continent with countries including Australia, Austria, China, Egypt, Iran, Papua New Guinea, South Africa, South America and the United Kingdom. Our team includes not only former journalists and resource analysts but also public relations specialists with a combined expertise of more than 100 years. Our staff have undertaken activities including:

- financial and specialist media relations using our significant contacts in the financial, mining, investment and trade media
- smaller company, resources and private client brokers and analysts support
- organisation of mine site familiarisation visits by key finance and resource media and mine stakeholders
- community relations programmes for planning permission, drilling activities and mine planning
- writing feature stories on our clients' operations and activities in the mining industry
- preparation of material for employee communication and toolbox sessions (with particular reference to restructuring)
- producing environmental profile documents and submissions for awards, as well as operation profiles and marketing documents
- producing annual reports & presentations
- web site creation and video production as well as the preparation of training videos
- political and media campaigning on environmental issues
- regulatory assistance at the European, national and local government level including planning, trade and industry and environmental issues advice
